

Professional Engineers
Ontario

Current issues that impact PEO to keep Government Liaison Program (GLP) members informed and aware.

Produced by the PEO Government Liaison Committee (GLC) Regulatory Issues sub-committee.

GLP INFO – Explanation of the different engineering organizations

GLP Notes 11.1 – Primary Engineering Organizations

Updated July 2018

Engineering Organization	Function	Purpose	Website
Professional Engineers Ontario (PEO) (legal name: Association of Professional Engineers of Ontario)	Regulatory body	The principal mandate of PEO is to regulate the practice of engineering in Ontario in the public interest and to govern licence holders in accordance with the <i>Professional Engineers Act</i> . Established in 1922 85,000 licensed members in 36 chapters across Ontario	www.peo.on.ca 
Ontario Society of Professional Engineers (OSPE)	Advocacy body Member services	OSPE is the voice of the engineering profession in Ontario. OSPE represents the entire engineering community, including professional engineers, engineering graduates and students who work or will work in several of the most strategic sectors of Ontario's economy. OSPE elevates the profile of the profession by providing government with evidence-based recommendations to influence public policy decisions. Formed in 2000 15,000 members	www.ospe.on.ca 
Consulting Engineers of Ontario (CEO)	Advocacy and services for consulting engineering firms in Ontario	The mandate of CEO is to actively promote the business and professional interests of its member firms to stakeholders including government, clients, industry groups and the public. Founded in 1975 170 member firms with over 18,500 employees in Ontario	www.ceo.on.ca 
Engineers Canada	National organization of Canadian engineering regulators	Engineers Canada serves provincial and territorial engineering regulators by coordinating the collective action of its constituent associations to ensure the highest standards of engineering education, professional qualifications and professional practice. Established in 1936 Twelve provincial and territorial engineering regulators, with a combined membership of 290,000 professional engineers.	www.engineerscanada.ca 

**Professional Engineers
Government of Ontario**
