Local community services.

Years of registration in Ontario: 12.00

Candidate statement:

Vivender Adunuri, P.Eng. for PEO Western Regional Councillor.

I am excited to be running for PEO Council as your Western Regional Councillor.

You can count on me to assist, play a team role and enhance the ideas at our new council.

My priorities as a Western Regional Councillor include the following:

- I am a strong believer in focusing on Regulation first so that we can execute licenses for the EIT's. This will increase the revenue from new membership and hence our voice with the government.
- Removing barriers for licensure through a more stream-lined process.
- Focus on core regulatory activities.
- We need to enhance the work of 30x30 by approaching women and encourage them to join our profession.
- We need to encourage engineering graduates to join PEO and strengthen our membership.

My chapter experience will help me to provide the support at our new council.
