

## **Kris Popiolek, P.Eng., FEC, for Western Regional Councillor**

As your Western Region Councillor, I will work *for* you, and *with* you to help PEO become the best, modern, regulator.

I am for:

- Proper support for chapters – to allow chapters to fulfill their roles in supporting self-regulation
- Equity and inclusivity in key decisions
- Trust, Transparency, and Accountability

I have been involved with London Chapter for 15 years, served as Chapter's Secretary, Vice-Chair, and Chair, as well as a key member of chapter's Licence Assistance Program, Certificate Presentation, and Golf Tournament organizing committees.

If given the honour and responsibility of serving as your new Western Region Councillor, I will work toward:

- Improving the perceived value of P.Eng. licence (for the government, the public, and engineers)
- Encouraging more engineering graduates to obtain their licence
- Removing barriers in getting licence
- Implementing changes in licensing, that go beyond meeting the minimum requirements of FARPACTA.
- Ensuring Council seeks meaningful input from members, especially while implementing big changes
- Increasing engagement of our members, and facilitating their participation in the decision making

*I support CPD, but how it was developed and made mandatory was undemocratic and arrogant.*

Other community service: Re-forest London volunteer; Member of Thames Valley Toastmasters - served as club's President, Treasurer, Secretary; Member of board of directors for condominium where I live.
