

Leila Notash, PhD, PEng, FEC, for Councillor-at-Large

I am committed to the principal object of PEO: [To regulate the practice of professional engineering in order to protect the public interest.](#)

I am in favor of

- [Member involvement in self-regulation](#), with respect for PEO members and volunteers. We must have [TRUST](#), [TRANSPARENCY](#) and [ACCOUNTABILITY](#).
- [Knowledge-based decision making and peer review](#), which Council has abandoned in recent major policy decisions.
- Reinforcing values of [Code of Ethics, Equity, Diversity, Inclusivity](#); including [cognitive diversity](#) and [demographic diversity](#) on Council and committees.
- **I am opposed to** imposition of mandatory [PEAK](#) until it has proven its [value](#) for PEO members and the public.
- **Council must address** the future of [self-regulated](#) professional engineering; modern, fair principles for [qualifications and practice in a global society](#), licensing of emerging disciplines resulting from [rapid advances in engineering](#).

I am a good listener, and an active and informed councillor. I have always fought to maintain PEO's relevance in a changing world.

A PROFESSIONAL ASSOCIATION, RUN BY PROFESSIONAL ENGINEERS

PEO and EC Activities

- **PEO Council:** Councillor-at-Large (2021-2023, 2019-2021); Audit, Executive, and Legislation Committees (2019-2020)
