COMPLIANCE WITH FARPACTA: ACADEMIC EQUIVALENCY AND THE CANADIAN EXPERIENCE REQUIREMENT

- 1. That Council recognize that obtaining a bachelor's degree in an engineering program that is included in the International Institutions and Degrees Database (IIDD) administered by Engineers Canada, subject to successful completion of a confirmatory examination program, is the engineering educational qualification equivalent to a bachelor's degree in a Canadian engineering program that is accredited to the Council's satisfaction.
- 2. That Council support the use of a competency-based assessment model including ethics indicators to confirm that an applicant for a licence has sufficient experience to enable them to meet the generally accepted standards of practical skill required to engage in the practice of professional engineering.
- 3. These motions are effective as soon as adequate notice of any change in requirements is given to prospective applicants but in any case will apply to new applicants not later than July 1, 2023.

There was a friendly amendment to vote on part 1 separately, and to vote on parts 2 and 3 together.

First proposed amendment to Part 1:

- 1. That Council recognize that obtaining a bachelor's degree in an engineering program that is:
- (a) identified as legitimate in the International Institutions and Degrees Database (IIDD) administered by Engineers Canada, and
- (b) subject to successful completion of a confirmatory examination program to be specified by PEO in consultation with subject matter experts, is the engineering educational qualification equivalent to a bachelor's degree in a Canadian engineering program that is accredited to the Council's satisfaction.
