Volunteer Week**
April 16–22,
2023

WEAVES US TOGETHER

Professional Engineers
Ontario

Volunteer Service
RECOGNITION 

THANK YOU, PEO VOLUNTEERS

Nick Colucci, MBA, P.Eng., FEC
President, 2022–2023
Professional Engineers Ontario

The theme of National Volunteer Week 2023 is *Volunteering Weaves Us Together*, which is a fitting description of the efforts of PEO volunteers in assisting us to regulate the engineering profession in the public interest and promote PEO's regulatory role across Ontario.

Last year, in 2022, more than 600 professional engineers, engineering interns and others—each individual threads in PEO's work—volunteered their time, knowledge and skills to make the organization a stronger regulator. As a self-regulated profession, it's great to see engineer volunteers coming together with their unique experience, perspectives and abilities to add to our collective strength.

Provincially, PEO councillors provide leadership and guidance in fulfilling our mandate to protect the public interest through effective self-regulation. Other provincial volunteers similarly met to serve on committees and task forces.

And at the local level, chapter volunteers hosted events to promote engineering and PEO's regulatory work in local communities; as well as providing professional development and networking events for chapter members and licence presentation ceremonies for new P.Eng. licence holders.

PEO gratefully acknowledges everyone who has served, and continues to serve, the profession in a wide variety of activities and events.

To our many volunteers who give their time and efforts to PEO and their profession, we thank you.
