Candidate statement:

BRANISLAV P. GOJKOVI, P. Eng.
Running for PEO Councilor-at-Large 2024

I do thank you, in advance, for your kind support re: election for Councilor at Large.

PEO Council has a very important role and responsibility re: self-regulating profession of the engineers. So far, PEO has always been the originator while the other associations of professional engineers were followers.

I do believe that, as Councilor at Large, I can personally contribute to the following areas of PEO Council responsibility:

- Providing high quality service to all PEO Members, while maintaining fiscal prudence (keeping Dues fees at current levels);
- Promoting the openness, integrity and transparency of the profession to the public;
- Improvement of the communications between the PEO and its membership as well as the PEO internal communications;
- Promoting inclusiveness, in all ways;
- Supporting Continued Professional Development (CPD);
- Support the Fair Access to Regulated Professions and Compulsory Trades Act, which is extremely important for foreign-trained and experienced professionals.
