Chapters, volunteers, and members must be consulted and in-the-loop. We cannot govern thinking they don't matter. <i>We are the "self" in self-governance.</i>• We have to manage our members' money wisely. With 89,000 members, we have tremendous economy-of-scale, and can provide licensees with reasonable fees. <i>I am eager to contribute my management and financial skills and experience to Council and to PEO.</i>• It's time to bring <i>all</i> engineers, including those in emerging disciplines—into our tent. Licensure must be portrayed as adding value and employability, not considered as a burden. <i>Excess bureaucracy and licensing hurdles such as "PEAK" make licensure a burden!</i>• Government and employers must be made aware how important engineering is to a robust economy and prosperity in general.• It's time to build relationships with OSPE, engineering organizations, and industry. <i>We are all in this together!</i>
