

Follow “P.Eng” Members;

PEOvote.ca Election Polls are now Open, & close 4pm on Friday Feb 16!

This year, **Voting** is easier both **online & by Phone** options... Your **PEO Election Ballot** (Voter ID & Password) was emailed to you from Vote@SimplyVoting.com on Friday 12 Jan 2024. Call [1-888-888-3507](tel:1-888-888-3507), if you have any issues &/or need support with casting your ballot.

Continuing Professional Development (CPD), & **PEO’s PEAK** (Practice Evaluation and Knowledge) Program is an “top” Election topic... I did support the **Member Referendum** that was promised, and do NOT appreciate the abrupt Council Decision to make PEAK mandatory without any member consultation. I do however accept that all Canadian Provincial & Territory Jurications have made it mandatory, and PEO was the last one to come onboard... I am a **Practicing Electrical Engineer** with Regulatory Safety Compliance expertise for Products, Systems & Machines practicing in 5 Jurications, namely Ontario, Newfoundland & Labrador, Yukon, Northwest Territories & Nunavut. There is a high need for CPD Reform for more consistent requirements with reporting Nationally in Canada. My experience is PEO’s CPD/PEAK is the least onerous with a variable Reporting Hours based upon your Work environment & practice requirements (upward to a maximum of 30 hrs, based upon 20 Practice Questions, PEGNL requires 30 Hrs while APEGA, NAPEG (NWT & NU) & Yukon Engineers requires 240 hrs over 3 years).

Later this month by **Wed 31 Jan 2024**, all **Ontario Practicing “P.Eng”** are required to complete **PEO PEAK Modules 1 & 2**.

This year, PEO will be **enforcing CPD/PEAK submissions, with Audits & Sanctions!** For the latest details, browse,

<https://PEO.on.ca/Licence-Holders/Mandatory-CPD>

Please let me know if I can be of assistance... I can be available to help and eager to schedule a **Virtual MeetUp** Information Session!

PEOvote.ca #SafetyGuy4VP before 4pm on Friday 16 Feb 2023
