

# “THERE IS NO EXCUSE FOR NOT TRYING”

Dear Members,

As a candidate for Vice President and a devoted member of our engineering community, I share this message with a **collective pride in our profession**.

Engineering is the bedrock of our society. Every facet of our lives bears the imprint of our profession. Self-regulation is a privilege not right; it's a challenging responsibility, especially when considering the difficulties faced by self-regulators in other provinces.

Whether tackling significant issues like the **EVOLVING ENGINEERING DISCIPLINES** or addressing ongoing tasks such as implementing crucial changes like FARPACTA and **CPD (*the one-size-fits-all approach left many members confused*)**, the revival of the **EIT program**, enhancing **members' respect and engagement**, and **strengthening chapters**, PEO requires a **PROACTIVE APPROACH**. A reactive stance, waiting for external directives, is no longer sustainable.

The **solution** is in your hands, dear members. I encourage you to dedicate a few minutes to the election process, casting your vote for leadership and passion in each eligible position.

**Council engagement is pivotal at a strategic level**; therefore, it is imperative to **elect candidates with proven strategic experience, skills, competence, and leadership beyond mere election promises**, with **evidence** of their **commitment**.

I present myself as a candidate for the VP position, offering a **unique blend of experience and competence**:

- Extensive chapter/PEO experience with leadership roles
- Strong business and financial acumen
- **Demonstrated leadership in transforming organizations**

While PEO election may not be at the forefront of your mind, **decisions made in the council directly impact** the regulation of our profession.

If I can persuade those who did not vote last time to participate this time, I would consider it a victory.

Thank you for your time and consideration.

**ELECT Dr. SARDAR ASIF KHAN FOR Vice President**
