

## **ACCOUNTABILITY—TRUST—TRANSPARENCY**

I am the current east region councillor and I am seeking your vote for re-election.

My passion to help recently includes the PIPSC federal government NR engineers. December 14th, 2023 I was thanked for being the catalyst that successfully negotiated a collective agreement with Treasury Board of Canada. The second of two PIPSC webinars is scheduled for stakeholders engagement on the improvements, [kirkbyt@pipsc.ca](mailto:kirkbyt@pipsc.ca) bargaining team member.

Eastern region PEng's, including the Federal government engineers, "Your vote will make a difference" in this election.

Our challenge is to understand the proposed governance changes, which could reduce licensing to a narrow definition of regulated engineering.

It's difficult to understand how members motions and simple consultation with members has not been included in critical governance decisions.

The loss of member and volunteer influence inside PEO continues with the last remaining member committees recently replaced with a generic advisory group. My work as eastern region councillor has been active and engaging with six chapters and their chapter leaders/volunteers. Chapters are a very valuable resource. As past chapter chair, I fully support chapters. On January 19th the OSPE board and council of PEO met for the first time in 24 years. I participated and was impressed with the stakeholder sharing and engagement.

My opponent was chair of RPLC and brought the new admissions models to Council in November 2022. It is valuable to note that NO stakeholders were sought by RPLC on the new admissions model despite requests as I noted in my first eblast.

My actions on council in support of A PROFESSIONAL ASSOCIATION RUN BY PROFESSIONAL ENGINEERS is proven by my Council voting record.

Tim Kirkby PEO Eastern Region Councillor [kirkbyt@hotmail.ca](mailto:kirkbyt@hotmail.ca),  
Engineers Canada Board  
PEO Order of Honour member  
PIPSC Life Member - 10 years significant leadership
