

Re-elect Vicki Hilborn, BAsC, MAsC, P.Eng. for Western Regional Councillor

Thank you for your continued support over the past two years as your Western Regional Councillor. I am deeply grateful for the chance to engage with and learn from the passionate engineering community in Western Region.

My tenure on Council has solidified my belief in the importance of self-regulation in preserving the public interest. I am committed to fostering innovation and modernization within the PEO, aligning it with the evolving needs of license holders, applicants, and the public.

As Chair of the Regulatory, Policy and Legislation Committee (RPLC), I've advocated for reestablishing a pre-license program similar to the EIT, a crucial step in supporting new graduates—an initiative that personally benefited my own career.

As a past chapter chair, I recognize the vitality of chapters. I understand the need to bolster their support, ensuring their vibrancy in promoting the PEO's role in our safe and productive economy.

If re-elected, my focus will be on reinstating the EIT program, fostering a culture of respect and productivity within the Council, and nurturing vibrant chapters. I will continue to bring forth the vision necessary to strengthen self-regulation within the engineering profession.

With a Bachelor's and Master's in Applied Science and extensive experience as the Engineering Program Coordinator at the Ontario Ministry of Agriculture, Food, and Rural Affairs, I bring a wealth of expertise to this role. My involvement in various PEO committees and previous board memberships demonstrates my unwavering commitment to our profession's growth.

Thank you for your continued trust and support.
