

A PROFESSIONAL ASSOCIATION, RUN BY PROFESSIONAL ENGINEERS.

**PEO's elections are now underway if you didn't vote yet – please go online and vote!
Make your vote count and your voice heard.**

It's time Western Region had a fresh voice at PEO Council. I am that voice, as a Western Region Councillor, I would work for you, and with you to help PEO become the best, modern, regulator.

I am for:

- Proper support for chapters.
- Fairness and inclusivity in key decisions.
- Making Council more open and transparent.

It is time for PEO to rethink the structure and size of the Council?

Does PEO really need 30 councillors? With about 90,000 engineers in PEO, we have more people in council than that of City of Toronto.

I believe that councillors Appointed by the Lieutenant Governor should not be P. Eng. license holders.

This would not be an easy change, but I think we should start discussions about it.

As a Western Region Councillor, I'd work with PEO/Council to create a replacement for the EIT program. The "new EIT" system should be set up as quickly as possible, but without rushing to implementation that could turn out to be flawed.

If you have any questions or comments, feel free to contact me: kris.m.popiolek@gmail.com, via [LinkedIn](#), or krispopiolek.wordpress.com

Vote for me if you think that PEO should be a professional association, run by Professional Engineers.

**KRIS POPIOLEK, P.ENG.
FOR WESTERN REGION COUNCILLOR**
