

ACCOUNTABILITY—TRUST—TRANSPARENCY

“PEO is in need of strengthening self-regulation starting with a return to trusting the expertise of member volunteers.”

Members who have not voted who are reading my third and final message are too often very busy detailed engineers or simply engineers observing the full election messages to help them arrive at casting a well informed vote or members of the member majority who may not cast their vote.

I do encourage you to vote. Member voting participation rates this year have increased!

In the current council year I chaired all eastern regional congress meetings which included chapter chairs and vice chairs of all seven eastern region chapters. I have established and cherish contacts/friendships in the seven chapters that continue.

Additionally, I am the current eastern regional councillor fulfilling my first two year elected term on council. This year I won a councillors only vote to be the council chair of the PEO finance committee. Chairing the finance committee was a very busy role as council approved a motion to accept a detailed financial budget for council year 2024/25.

I respectfully ask you for your vote to continue my work with the seven eastern regional chapters.

Thank you!

My actions on council in support of A PROFESSIONAL ASSOCIATION RUN BY PROFESSIONAL ENGINEERS is proven by my Council voting record.
