Candidate statement:

Glen Schjerning - B.E., P.Eng
Running for re-election as a PEO Councillor-at-Large

A PROFESSIONAL ASSOCIATION RUN BY PROFESSIONAL ENGINEERS

-I seek to continue to so support PEO in the providing for the licensing and regulating of Professional Engineers in Ontario. We need to do this in an efficient, effective and cost-conscious manner. During the last two years there has been noteworthy improvement with PEOs operations. In support of this statement, please note that even during these recently inflationary times, PEO has not and is still not currently entertaining dues increases.

I wish to continue to support all these efforts.

-I am seeking to continue to support Good Governance, as demonstrated when by myself Chairing Governance and Nominations Committee (GNC) meetings, and as the Chair of an Ad Hoc Committee of the Council, which was tasked with developing and implement governance policies such as Codes of Conduct. These efforts are all toward developing and promoting effective professional team work at the PEO Council. There is still work to be done but we are moving forward.

-I fully support Continued Professional Development (CPD). The current PEAK program is facing some challenges, and how we manage this going forward will need to be carefully considered. All suggestions and feedback are very welcome.

-I am a big fan of the PEO Chapters, and strongly believe the PEO needs to provide much better engagement with and much greater support to the PEO Chapters.

Please support me with my re-election as a PEO Councillor-at-Large.

Thank you,
Glen Schjerning
