Water Environment Federation
CSA Group

Years of registration in Ontario: 9.00

Candidate statement:

Often seen as a trusted advisor, Susan has been providing consulting services to local municipal, industrial and indigenous clients for almost 15 years. She understands the key ingredients that make a successful project and a positive client relationship are often open communication, honesty, trust, a solution-driven mindset, and a supportive team.

Susan started volunteering for PEO Kingston Chapter in 2016 and has always wanted to give back to the profession. She has since successfully led the Licensure Assistance Program (LAP) before moving on to the Treasurer, Vice Chair and Chair positions.

She understands that the roles and responsibilities of a councillor are different than a chapter volunteer, and being on Council requires a different mindset. She believes that the interactions and relationships she built with the Eastern Regional Chapter leaders are an invaluable asset to her understanding of local issues.

➔ Susan is committed to building strong relationships with fellow councillors, CEO/Registrar, staff and regional chapter leaders.

➔ Susan is committed to always representing PEO in a positive manner, making meaningful connections with our members, and acting as a channel between members and Council.

➔ Susan is committed to empowering young and seasoned professionals to be engaged with PEO, and ensuring members see value and relevance of PEO.

➔ Susan is committed to joining the push towards a modernized profession in a changing world.
