

Fellow P.Eng members;

PEO Voting started on **Monday 27 Jan 2024** and remains open till **10am on Monday 24 Feb 2025**. Your **PEO Election Ballot** (Voter ID & Password) was emailed from Vote@SimplyVoting.com. **Voting** is easy, with both **online & by Phone!**

My **Council Priorities** remain as follows:

<input type="checkbox"/> EIT Re/Instatement Framework	<input type="checkbox"/> Supporting EIT Experience, with Mentorship & 2-year Internship	<input type="checkbox"/> Supporting Emerging Disciplines, with Rights to Practice
<input type="checkbox"/> Enhancing CPD/PEAK, with greater alignment across all Canadian Jurisdictions & Engineers Canada support.	<input type="checkbox"/> Council & Election Reform, with Evaluation of Governance Framework & Councillor Remuneration.	

Continuing Professional Development (CPD) & PEO's PEAK (Practice Evaluation and Knowledge) program remains a "top" election issue... I did support the **Member Referendum** that was promised, and do NOT appreciate the abrupt Council Decision to make PEAK mandatory without any member consultation. I do however accept that all Canadian Provincial & Territorial Jurisdictions have made it mandatory, and PEO was the last one to come onboard. I am an Electrical **Engineer practicing in 5 Jurisdictions**, namely **Ontario, Newfoundland & Labrador, Yukon, Northwest Territories & Nunavut**. There is a huge need for CPD Reform for more consistent requirements with reporting nationally in Canada. Later this month by **Thurs 31 Jan 2025**, all **Ontario Practicing "P.Eng"** are required to complete **PEO PEAK Modules 1 & 2** (<https://PEO.on.ca/Licence-Holders/Mandatory-CPD>).

E4P (Engineers For the Profession; E4Pinc.ca) has been engaging with members & **Election Candidates** on key issues.

Please share with me your issues & concerns. I fully support our **Engineering Self-Regulation** & your **Member Input & Votes** are necessary!

Regards, **Guy Boone, P.Eng** ([PEO](#), [PEGNL](#), [NAPEG: NWT & NU](#) & [Engineers Yukon](#)) **FEC**
