

# Ottawa Chapter of Professional Engineers Ontario (PEO) Scholarships for Grade 12 students

The PEO Ottawa Chapter has the mandate to foster student interest in science and engineering; raise awareness of the role of professional engineering in society and encourage and support students who wish to explore a possible future career in science and engineering.

The Grade 12 Engineering Scholarship program was started several years ago and provides a cash award annually to graduating high school students in the Ottawa region who will be attending an Engineering faculty at a Ontario university accredited by the Canadian Engineering Accreditation Board (CEAB). The award criteria are based upon academics, extracurricular activities, community service and interest in pursuing a career in engineering as a licensed Professional Engineer.

Two scholarships of \$1,500 each to eligible students across the region are available. An e-mail will be sent out to Chapter members announcing the submission dates in spring or each year. The application form can be found in attachment and on our website at the link below.

If you have any questions or require additional information, please contact the Ottawa chapter at:
